Possible uses for the object:

- Use as a bottle opener with the inner middle hook
- Paper weight
- Necklace, stringing the device through the hole at the corner
- By swinging the hinge and hitting the other side it would make a sound to be used as an instrument
- Straight edge... as seen in image 1
- Attach through hole to a key chain and use as self-protection device
- Use rectangular tab end as a paint mixer
- Use rectangular tab end as a scoop for peanut butter
- Use as device to "lock" doors from the inside (like those used in schools during lockdowns) place the flat end through the door and turn the hinge so that the sharp bit is wedged into the door... as seen in image 2
